INTERNSHIP

Planning Design Studio (PDS) offers students of landscape architecture the opportunity to participate in **paid summer and 8-month internship programs** at our St. Louis, Missouri office. Successful candidates will participate in current project work and have the opportunity to work with a group of professionals with significant experience in completing a wide range of project types, including master planning through final design and construction documentation.

Our office is located in downtown Maplewood a historic suburb of St. Louis, which is home to the nation's first Green Dining District and independent shops that create an exciting and livable community. Our firm emphasizes a creative and process-oriented design approach to develop environmentally responsive, sustainable, and exciting community spaces that exceed client expectations.

Selected interns will be paid a competitive salary while they are working and will be given the opportunity to interact with all staff members. **Internship responsibilities will include assisting with design conceptualization, site inventory, photography, plan production, plant selection, sketching, perspectives, rendering (computer or hand), take-offs, CAD drafting, and other varied tasks.** The goal of our intern program is to provide students with an opportunity that challenges them and strengthens their skills.

WHAT DO YOU NEED?

- Positive attitude and willingness to learn
- Creativity and vision
- Course of study in Landscape Architecture
- Desire to have fun and work in a great environment
- Computer skills that would be helpful: AutoCAD, Civil 3D, Photoshop, SketchUp, Excel, Word, and PowerPoint

How to apply?
